

Custom front stabilizer kit designed for our proprietary suspension. The project was developed in a CAD environment, ensuring perfectly replicated dimensions and maintained precision.

The product is one of the components that make up the complete Trapez Billet suspension kit. The arms and stabilizer mounts were made using CNC milling technology.

EASE OF INSTALLATION

IMPROVED STIFFNESS
AND STABILITY OF THE SUSPENSION

HIGH-QUALITY MATERIALS

REDUCED BODY ROLL

PRODUCT DESCRIPTION

The kit includes a reaction rod, stabilizer arms, reaction rod mounts, and stabilizer links. The rod is made from a 22mm bar of 50HS spring steel. This ensures proper force and stress distribution throughout the system - providing structural strength. The stabilizer arms are made from 7075 aluminum using milling technology. The stabilizer mounts are made from 6061 aluminum.

The connection between the arms and the reaction rod is designed in the form of a spline. This ensures high strength and proper force transfer between the rod and the arms.

MAIN PRODUCT FEATURES

- Durable construction
- Design subjected to strength testing - FEM
- Design made using 3D scans, ensuring perfect fit

THE KIT INCLUDES:

- Reaction rod (1 piece)
- Reaction rod mounts (2 pieces)
- Stabilizer arms (2 pieces)
- Stabilizer links (2 pieces)
- Mounting screw set

APPLICATION:

This product will fit the following model years of Ford Mustang:

- 1964/5 Fastback, Coupe, Convertible
- 1965 Fastback, Coupe, Convertible
- 1966 Fastback, Coupe, Convertible
- 1967 Fastback, Coupe, Convertible
- 1968 Fastback, Coupe, Convertible

INSTALLATION INSTRUCTIONS:

Technical data sheet

DIFFICULTY LEVEL:

Intermediate. Intended for installation by qualified individuals.

NOTES:

*Before purchasing, ensure that the product fits your vehicle.
