

Precisely machined upper control arm mount (Shelby drop) designed for classic Ford Mustang models. Made from high-strength PA9 aluminum alloy, it ensures excellent rigidity and wear resistance.

The surface is black anodized, enhancing its aesthetic appeal while providing additional protection against corrosion and mechanical damage. This product is part of our proprietary Classic BoltOn and Trapez Billet suspension systems.

HIGH RESISTANCE TO MECHANICAL DAMAGE

HIGH-QUALITY CRAFTSMANSHIP

CNC-MACHINED CONSTRUCTION

BOLT-ON SUSPENSION

PRODUCT DESCRIPTION

The part was designed in a CAD environment, enabling precise replication of dimensions and perfect alignment with factory mounting points. During the design stage, it underwent strength analysis using FEA (Finite Element Analysis), which allowed optimization of its shape and material thickness to achieve maximum durability while keeping weight low. The mount is fully compatible with the original mounting points - a true “plug & play” solution that requires no alterations or modifications to the vehicle’s structure.

KEY PRODUCT FEATURES

- Durable construction: The design has been tested in an FEA (Finite Element Analysis) environment to simulate the forces acting within the system.
- Design developed using a 3D CAD environment
- CNC machining

THE KIT INCLUDES

- Upper control arm mount (1 piece)
- Spacer bushing (1 piece)
- Mounting kit

APPLICATION

This product is compatible with the following Ford Mustang model years:

- Ford Mustang Fastback 1964/5-1966
- Ford Mustang Fastback 1967-1968
- Ford Mustang Coupe 1964/5-1966
- Ford Mustang Coupe 1967-1968
- Ford Mustang Convertible 1964/5-1966
- Ford Mustang Convertible 1967-1968

INSTALLATION INSTRUCTIONS

Technical data sheet

DIFFICULTY LEVEL

Advanced – installation of this product requires a high level of specialized knowledge.

NOTES

* Installation does not require any modifications to the bodywork.
