

The Ford Mustang is not only an icon of performance, but also one of the most recognizable sounds in the world of American V8 engines. The exhaust system, designed in a 3D CAD environment, was developed to emphasize the natural characteristics of the power unit while ensuring precise fitment to the vehicle's chassis. Modified side-exit configuration give the system a distinctly sporty character. The system is manufactured from AISI 304L stainless steel and hand-welded using the TIG method, ensuring durability and high manufacturing quality. The electronically controlled valve regulates exhaust gas flow, allowing direct control over sound level and overall drivetrain characteristics.

**SIDE-EXIT EXHAUST OUTLETS****ELECTRONICALLY CONTROLLED VALVES****AISI 304L STAINLESS STEEL****PRECISION 3D CAD DESIGN**

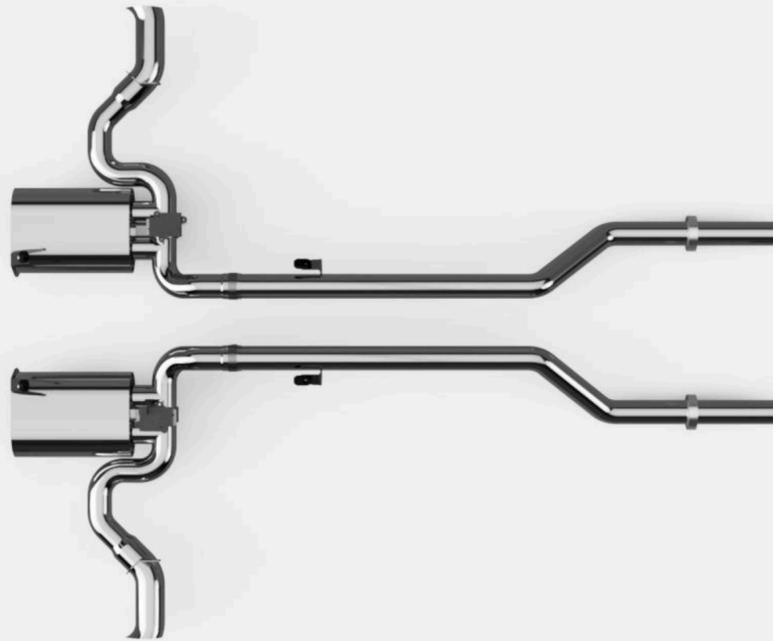

**PRODUCT DESCRIPTION:**

The exhaust system for the Ford Mustang features a dual-path configuration with side exits on both the left and right sides of the vehicle. The design was developed in a 3D CAD environment to ensure geometric compatibility with the factory suspension and chassis mounting points. The construction provides a use of elliptical rear mufflers. Each rear section is equipped with an electrically controlled valve that allows regulation of the exhaust gas flow path. Changing the valve position affects the system's operating characteristics and sound level. The exhaust system diameter is 2.5 inches. All components are manufactured from AISI 304L stainless steel, and the connections between sections are executed using V-band clamps. All welds are hand-finished using the TIG method.

**KEY PRODUCT FEATURES:**

- Side-exit exhaust configuration
- Catalyst delete design
- Electronically controlled exhaust valve
- 2.5-inch diameter
- AISI 304L stainless steel construction
- Hand-welded using the TIG method
- Elliptical rear mufflers

**THE SET INCLUDES:**

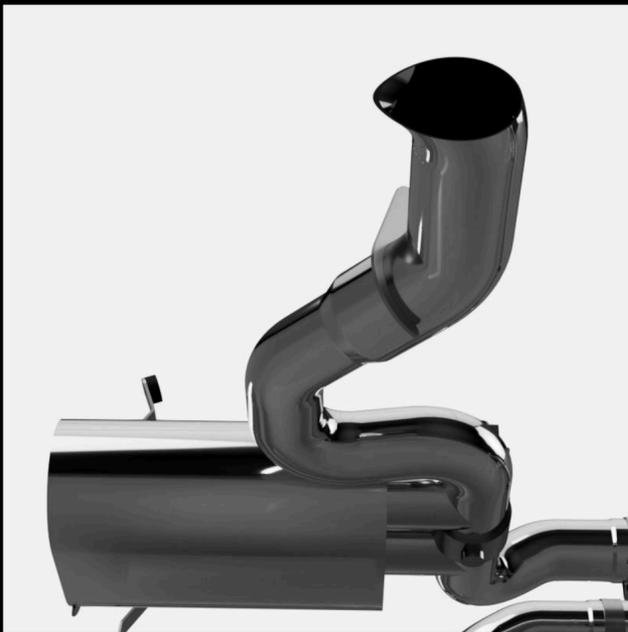

- Two rear sections (left and right), each including:
  - Elliptical rear muffler
  - Electrically controlled exhaust valve
  - Control module
- Exhaust hangers
- First section
- Middle section
- Installation hardware kit
- Connecting components for section assembly

**APPLICATION:**

This product is compatible with the following Ford Mustang model years:

- 1964.5 Fastback, Coupe, Convertible
- 1965 Fastback, Coupe, Convertible
- 1966 Fastback, Coupe, Convertible
- 1967 Fastback, Coupe, Convertible
- 1968 Fastback, Coupe, Convertible

**INSTALLATION INSTRUCTIONS:**

Technical data sheet

**DIFFICULTY LEVEL:**

Intermediate. Intended for installation by qualified individuals.

**NOTES:**

\*Before purchasing, please ensure that the product is compatible with your vehicle.
