

Exhaust system designed for the deep sound of a classic V8, crafted from high-quality stainless steel and engineered to fit the vehicle using 3D CAD technology.

The three-piece modular design consists of a front section with flex joints, a centre section with an X-pipe and centre silencers, and a rear section with electronically controlled exhaust valves. Individual sections can be purchased and installed without replacing the entire system.

MODULAR THREE-PIECE DESIGN

DEEP V8 SOUND

ELECTRONICALLY CONTROLLED VALVES

PRECISION 3D CAD DESIGN

**PRODUCT DESCRIPTION:**

The GTM exhaust system features a three-piece modular design that allows integration with the vehicle's factory exhaust system. Each section can be installed independently by welding V-band flanges at the connection points.

The centre section combines an X-pipe with centre silencers to help shape the system's exhaust note. The rear section features electronically controlled exhaust valves that can be opened or closed to adjust the sound to the driver's preferences.

The exhaust system has a diameter of 2.5 inches. All components are made from AISI 304 stainless steel, with V-band connections between sections providing a secure seal and allowing easy installation and removal.

KEY PRODUCT FEATURES:

- Three-piece design allowing each section to be integrated with the factory exhaust by welding V-band flanges at the connection points.
- Centre section featuring an X-pipe and centre silencers.
- Equipped with valves that allow manual opening and closing, affecting exhaust flow and the resulting sound
- Exhaust system diameter: 2.5 inches
- AISI 304 stainless steel construction

THE SET INCLUDES:

- First section with flexible couplings
- Centre section with an X-pipe and centre silencers
- Third section containing the final exhaust components, including the mounting kit, electronic valves, and controller
- Exhaust hangers
- Exhaust tips (4 pcs) (to choose)
- Rear mufflers (2 pcs)
- Exhaust tip mounting clamps

APPLICATION:

This product is compatible with the following Ford Mustang model years:

- 2015-2023 Fastback
- 2015-2023 Convertible

INSTALLATION INSTRUCTIONS:

Technical data sheet

DIFFICULTY LEVEL:

Intermediate. Intended for installation by qualified individuals.

NOTES:

*Before purchasing, please ensure that the product is compatible with your vehicle.
