

In the Mustang Gen 6, the driving position is extremely important - especially when the car is used for dynamic driving, track days, or builds with sport seats. The problem is that the market lacks ready-made, well-fitted seat bases designed specifically for this Mustang generation. Universal solutions often require modifications, welding, or compromises during installation.

The Restomotive seat base was designed specifically for the Ford Mustang GT Gen 6 as a rigid, well-fitted mounting platform. Its construction made from structural S355 steel is installed without welding, using the original mounting points in the chassis. As a result, it provides stable seat positioning without unnecessary interference with the vehicle structure.

DEDICATED TO GEN 6

NO CHASSIS MODIFICATION

S355 STEEL

STABLE SEAT POSITION

PRODUCT DESCRIPTION

The Restomotive seat base for the Ford Mustang Gen 6 was developed as a dedicated solution for this Mustang generation, in response to the lack of ready-made mounting bases designed specifically for this platform.

The product allows the seat to be installed in a stable and clean way, without welding and without interfering with the floor structure. The construction is made from S355 structural steel and uses the original mounting points in the body, providing high rigidity, mechanical strength, and secure seat positioning during dynamic driving.

KEY FEATURES OF THE PRODUCT

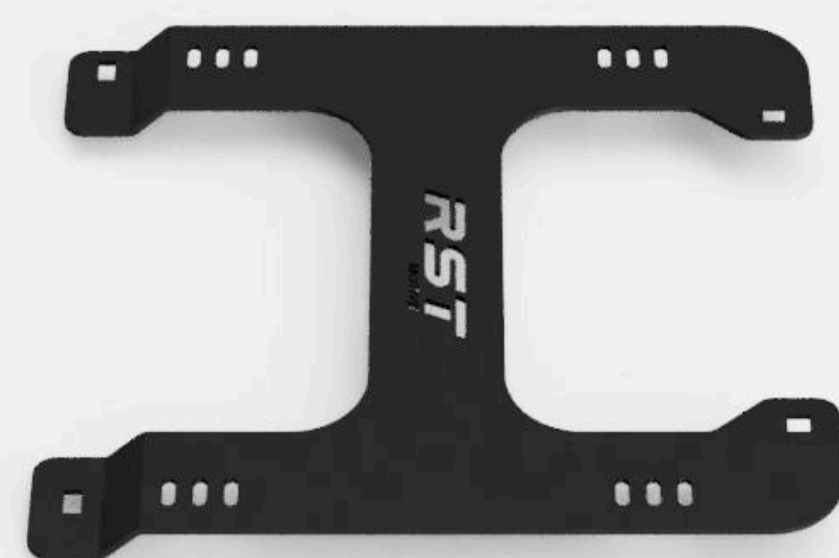

Dedicated construction: Designed specifically for the Ford Mustang GT Gen 6, not as a universal solution that requires fitting or adaptation.

Weld-free installation: The seat base is installed without welding and without permanent interference with the vehicle structure.

Original mounting points: The construction uses the factory mounting points in the Mustang chassis.

Structural S355 steel: Provides high mechanical strength, rigidity, and resistance to load.

Stable seat mounting: The rigid base reduces unwanted seat movement and improves driver position confidence.

THE SET INCLUDES:

- Bucket Seat Mounting Base (driver side)
- Installation kit

APPLICATION:

- Ford Mustang Convertible Gen VI
- Ford Mustang 2.3 EcoBoost Gen VI
- Ford Mustang 3.7 V6 Gen VI
- Ford Mustang 5.0 V8 Gen VI
- Ford Mustang 5.0 V8 Bullitt Gen VI
- Ford Mustang 5.2 Shelby GT350 Gen VI
- Ford Mustang 5.2 Shelby GT500 Gen VI

ASSEMBLY INSTRUCTIONS:

Technical data sheet

LEVEL OF DIFFICULTY:

Intermediate. Intended for installation by qualified personnel.

COMMENTS:

Before purchasing, ensure that the product is compatible with your vehicle.
