EXHAUST SYSTEM - MIDDLE SECTION (X-PIPE)
FORD MUSTANG GEN 6

PRODUCT CODE: GTM.601.001.000.000

The middle section of the GTM exhaust system, featuring an X-Pipe, centre silencers and flexible couplings, has been designed as an independent module of our proprietary three-piece exhaust system for the Ford Mustang Gen 6. Its modular design allows for flexible configuration and future expansion of the system without the need to replace the entire exhaust.

The X-Pipe improves exhaust gas flow between both cylinder banks, resulting in smoother engine operation and a more distinctive, sporty exhaust note. The system has been optimised to minimise flow resistance while maintaining the right balance between performance, refinement and engine sound.

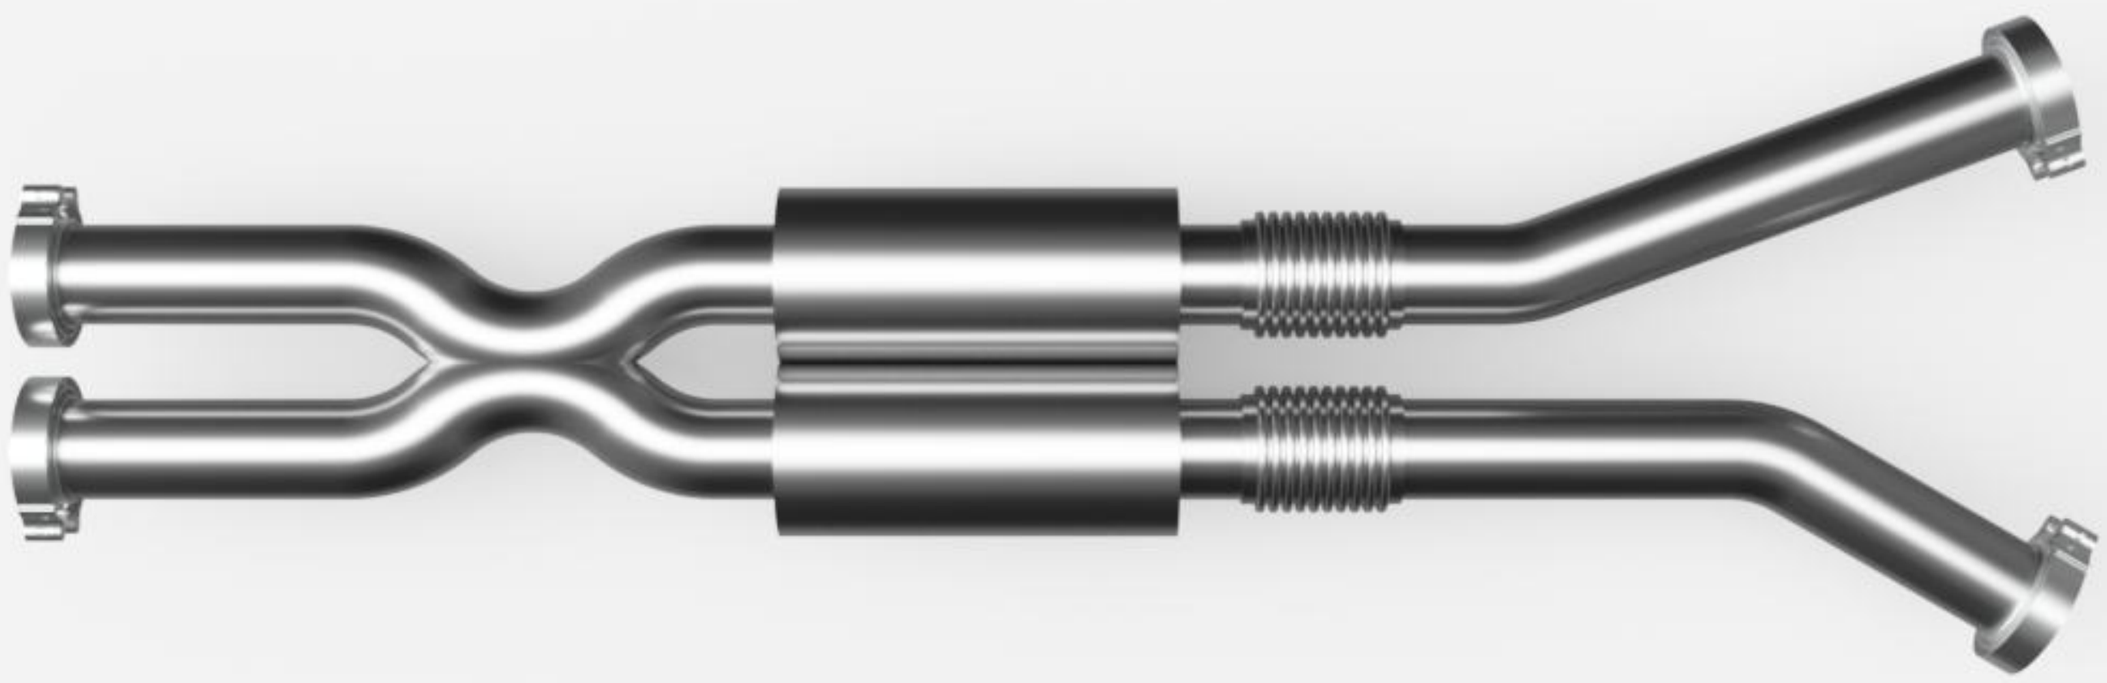

The entire section is made from AISI 304L stainless steel with a diameter of 2.5 inches, providing excellent corrosion resistance, durability and an attractive appearance for many years of use.

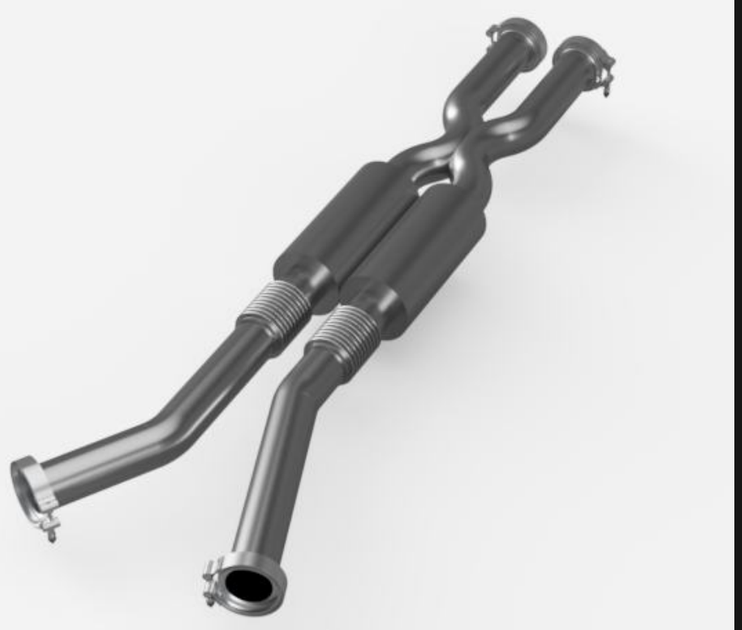

- MODULAR DESIGN
- OPTIMIZED EXHAUST GAS FLOW
- DEEP, SPORTY EXHAUST SOUND
- PRECISION 3D CAD DESIGN

EXHAUST SYSTEM - MIDDLE SECTION(X-PIPE)

FORD MUSTANG GT GEN 6

PRODUCT CODE: GTM.601.001.000.000

PRODUCT DESCRIPTION

The GTM X-Pipe centre section with centre silencers and flexible couplings was developed to improve exhaust gas flow and achieve a distinctive, sporty exhaust note. The X-Pipe ensures balanced exhaust gas flow, while the centre silencers reduce excessive resonance and smooth out the sound while maintaining a deep engine note. The flexible couplings compensate for vibrations and movement of the exhaust system, reducing the transfer of stress to other components.

Each component is carefully TIG-welded to ensure high mechanical strength and an aesthetic finish. AISI 304L stainless steel provides resistance to high temperatures, moisture and weather conditions, allowing the system to retain its properties for many years of use.

KEY FEATURES OF THE PRODUCT

Modular design - can be purchased and installed independently of the other exhaust system sections

X-Pipe configuration - improves exhaust gas flow and balances exhaust pulses between both cylinder banks

Deep, sporty exhaust sound

Optimized flow geometry - reduces exhaust backpressure and supports engine performance

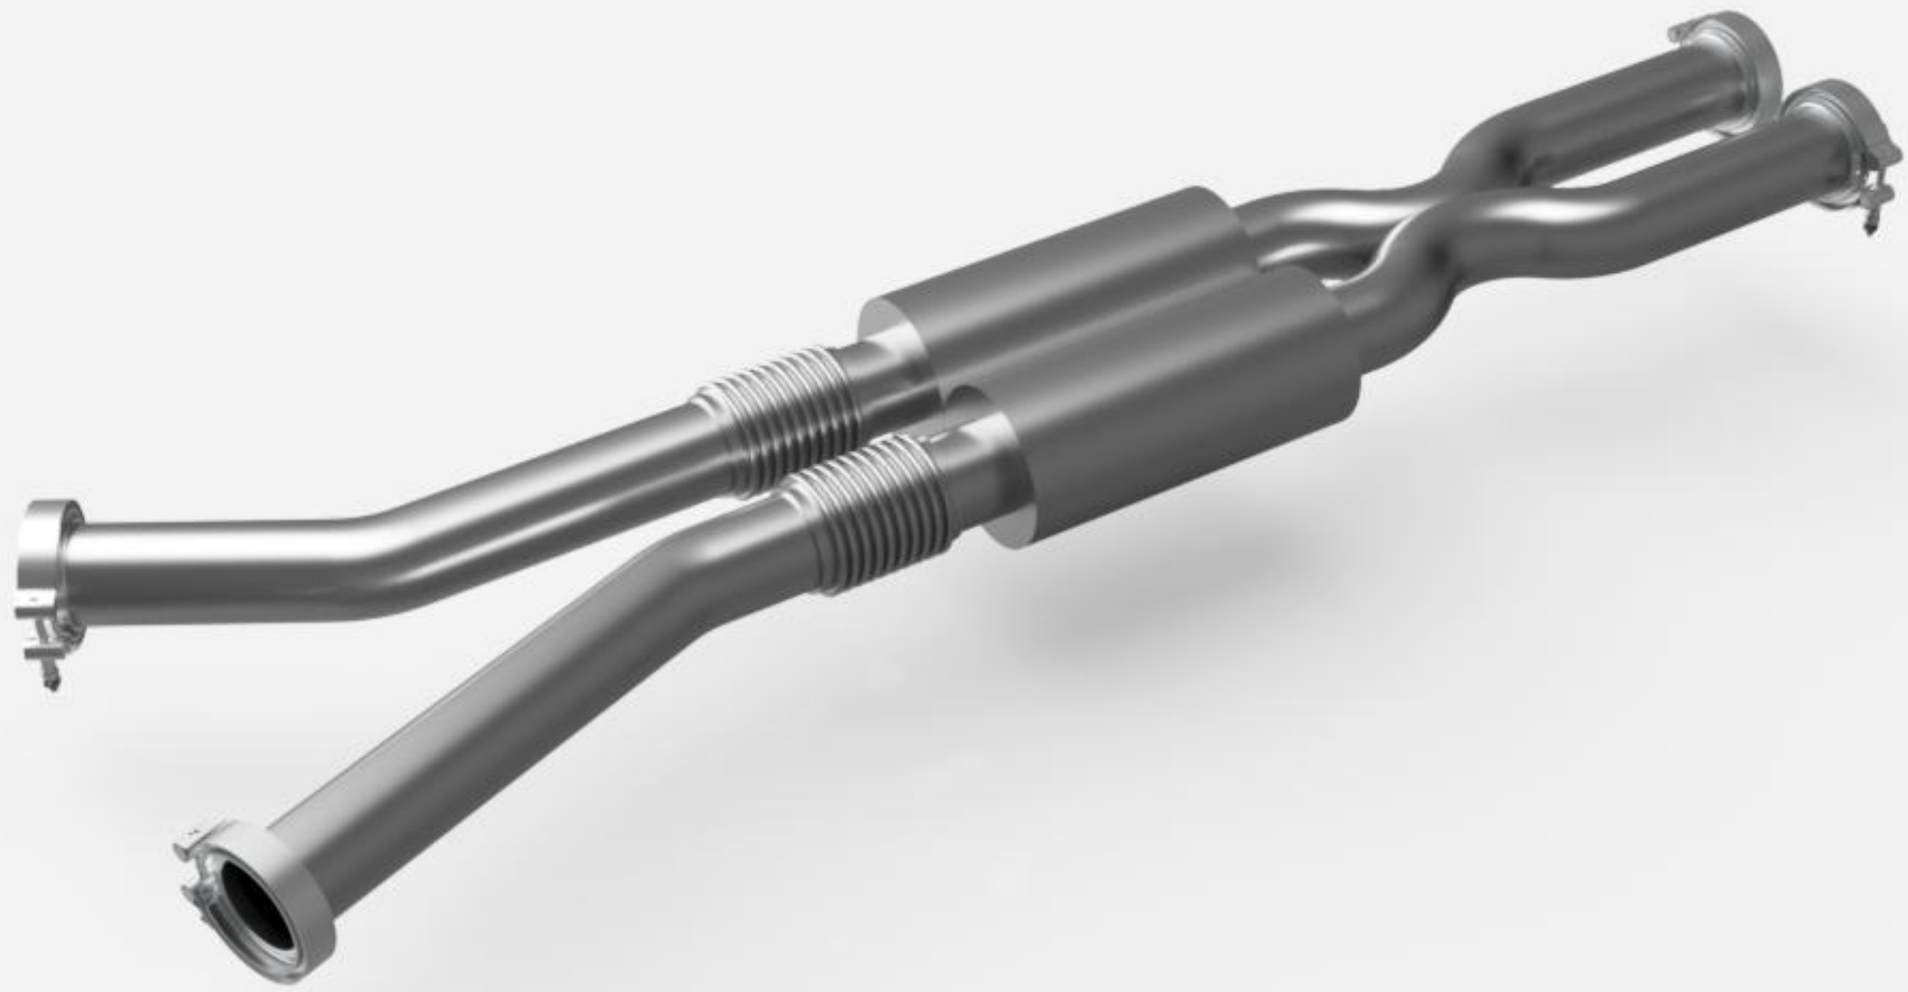

Precision fit thanks to 3D CAD engineering

V-band connections ensure a leak-free seal and allow quick installation and removal

EXHAUST SYSTEM - MIDDLE SECTION (X-PIPE)
FORD MUSTANG GT GEN 6

PRODUCT CODE: GTM.601.001.000.000

THE SET INCLUDES

- X-Pipe mid-section with center mufflers and flexible couplings
- V-bands (4 pcs.)
- Exhaust hangers

APPLICATION

- Ford Mustang 3.7 V6 Gen VI
- Ford Mustang 5.0 V8 Gen VI
- Ford Mustang 5.0 V8 Bullitt Gen VI
- Ford Mustang 5.2 Shelby GT350 Gen VI
- Ford Mustang 5.2 Shelby GT500 Gen VI

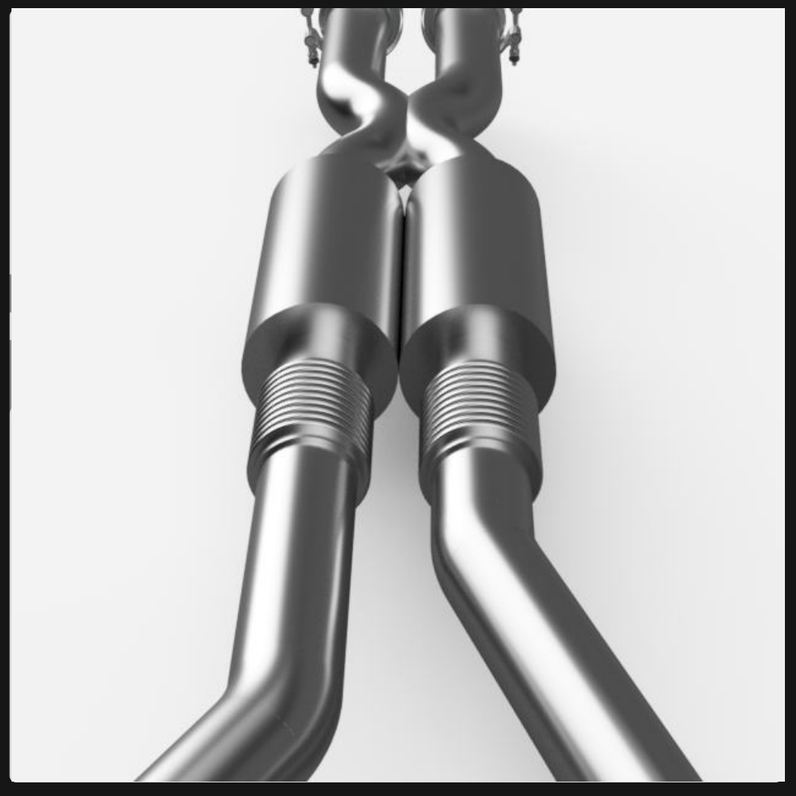

EXHAUST SYSTEM - MIDDLE SECTION (X-PIPE)

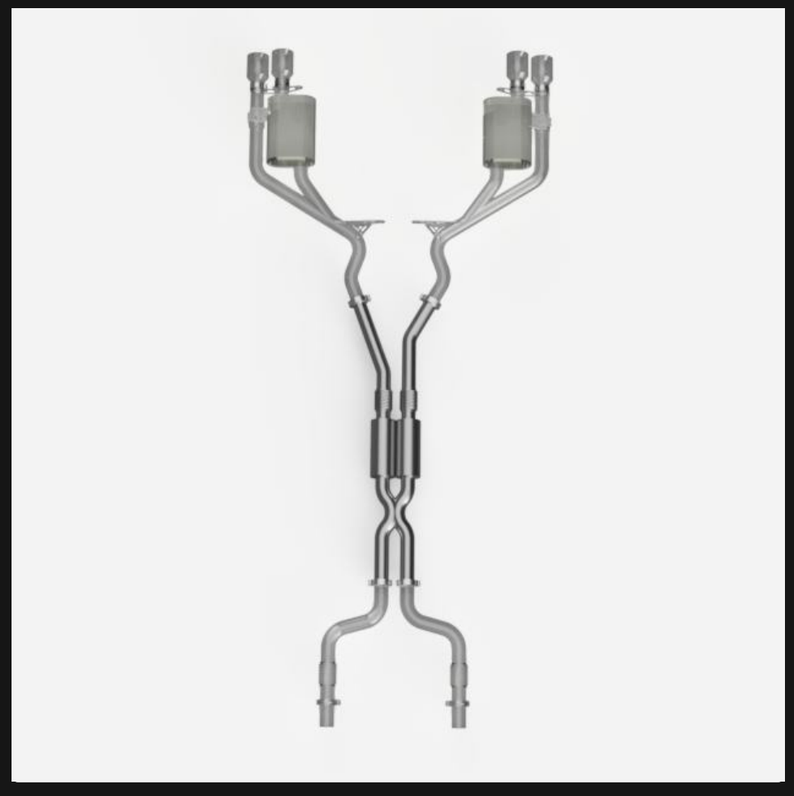

FORD MUSTANG GT GEN 6

PRODUCT CODE: GTM.601.001.000.000

ASSEMBLY INSTRUCTIONS:

Technical data sheet

LEVEL OF DIFFICULTY:

Intermediate. Intended for installation by qualified personnel.

COMMENTS:

Before purchasing, ensure that the product is compatible with your vehicle.
